### **Brief CV**

I am a faculty member of Semnan University of Medical Sciences. With more than 20 years of experience, I believe it is never too late to learn and the joy of life is learning. Our lives end when we can no longer learn anything. Every day I learn a new thing, I get one step closer to knowing my GOD. The path of our lives is planned to learn and understand the power of GOD Almighty. So learn that the purpose of life is to learn to draw closer to GOD.

I was born in Mashhad and after completing my masterchr('39')s degree at Tarbiat Modares University in Tehran, I came to Semnan and I have been learning and teaching in this city for more than 20 years. I received my doctorate in 2010 and tried to contribute to patient care by

approaching clinical areas. Currently, as the director of the intensive care unit, I hope to be able to contribute to improving the quality of care for these patients.

Dr. Mohsen Soleimani PhD in Nursing
